SW486

Unblocking and protective spray

DESCRIPTION

SW486 is a specific unblocking fluid approved by Faiveley Transport. The product is a versatile solution, combining fast unblocking action and antioxidant protection. **SW486** provides also a temporary lubrication.

APPLICATIONS

SW486 has excellent capillary properties also in vertical applications. It stands as a reliable aid to dismount screw, bolts, clamps, locks and many other.

SW486 is recommended as an emergency lubricant for small mechanics as:

- ✓ guides
- ✓ hinges
- ✓ timers
- ✓ chains

COMPATIBILITY

SW486 contain solvents, therefore it is **NOT** recommended for the use on rubber parts, plastic and painted surfaces. The product does not affects metals and alloys.

HANDLING AND STORAGE

Spray cans are pressurised and must be kept in a safe place, away from heat, sparks, flames and any potential ignition source. Do not spray onto naked flames or any other incandescent or heated material. Do not spray on live electric and electronic devices including contacts and batteries. Use in a well aired place. Do not smoke while using the product and anywhere the product is used or stored. Spray carefully avoiding any contact of the product or its vapors with flames or uncovered electric devices. It contains no propellants alleged to damage ozone.

For further information, please refer to the safety data sheet.

TECHNICAL DATA

Colour	light brown
Specific gravity at 20 °C, kg/m ³	810
Flash point, C.O.C	>55 °C
Max operating temperature	160 °C

PACKAGING

SW486 is distributed as 400ml spray cans packaged in 12 pcs carton.
